PERIPHERAL NEUROPATHY

TRY A NEW SOLUTION FOR **DIABETIC, CHEMOTHERAPY AND AGE-RELATED NEUROPATHY**

Are you experiencing pain, numbness, burning, tingling or loss of feeling because of neuropathy?

INNOVATIVE TREATMENT – POWERFUL RESULTS

K-Laser Therapy (CLASS 4) is a drug-free solution that does not involve injections or surgery. It is proven to be **90% EFFECTIVE** at treating Neuropathy, as supported by recent scientific research.

Our Patients Get Results

Dr. Barnard has been very helpful and caring about my neuropathy and back issues. I'm experiencing more feeling in my legs and walking has improved. Amazing how K-Laser has helped.

Jim W.

I had been wearing socks to bed since 2009.
After the 4th treatment with K-Laser I had to remove my socks during the night as my feet were too hot. I have not worn socks to bed since. Initially, I was not able to feel the tuning fork at all from my knees to my toes. After the 10th treatment I could feel the tuning fork all the way down to my toes. I have noticed that the twitching in my calf muscles has stopped.

Trevor G.
