Can't Hear Voices On TV?

AccuVoice® AV203 Speaker has six levels of voice boost to make TV dialogue crystal clear.

Our AccuVoice® AV203 Speaker uses patented hearing aid technology for the clearest TV dialogue we have ever heard. Digital algorithms lift voices out of background sounds. The 203 delivers six levels of voice boost – in case you need extra clarity! Only 17" wide, it fits anywhere. Hookup is simple – one connecting cord. Room-filling home theater sound, with the clearest voices we've heard on any speaker, at any price.

"Great for folks who have trouble hearing the TV." CNET
