*Looking for a Sofa bed?*

## *Need a new bed? Want a good night's sleep?*

If you're thinking of changing your mattress but are confused by the sheer choice then take advantage of Rob's hand picked selection of mattresses, bedsteads and headboards. He's done all the hard work of cherry picking the best mattresses for every budget.

He has hand selected five mattresses, each offering different tensions to suit your comfort.

All our mattresses are pocket sprung, meaning each spring has its very own pocket. Sew thousands of these together then add layers of natural fibres like alpaca, cashmere

and silk. More sewing and more layers to produce our pocket sprung beds traditionally hand-crafted in the UK.

Are you a couple who cannot agree on what spring tension you want, then we can offer a dual tension (medium and firm) mattress, so both of you can have a perfect night's sleep together.

Do you get very hot at night or having hot flushes at night? Then pop in and take a look at our Richmond Cool mattress. It features revolutionary technology that optimises sleep comfort, with

properties that increase up to 400 times extra airflow and helps draw away moisture. Made using natural fillings and is 100% natural allergen.

All our mattresses are turn and rotatable with handles on each side to make this an easier job. By doing this, you'll retain your perfect sleep and mattress life. All our mattresses are Guaranteed for 10 years.
