A MESSAGE FROM THE CHINESE CONSULATE GENERAL ON COVID-19 OUTBREAK

Dear families & friends in Saskatchewan,

We sincerely hope the infected to recover quickly.

We encourage all Chinese citizens and members of local Chinese communities in Saskatchewan to stay vigilant and rational, seek updates from the Government of Saskatchewan and local health authorities, follow professional advice on infection prevention, and take stricter spontaneous measures at the individual level.

We strongly oppose any racism-driven comments or actions related to the outbreak.

We highly appreciate the support of the Canadian Government and people given to China and the Chinese people when China was in hot water. Now it is our turn to help back.

We are willing to work with Saskatchewan authorities for updates, lessons, experience, and technological applications.

We believe global solidarity will light up our way ahead to a final victory.

Our best wishes to everyone in Saskatchewan.
