

If you believe your only options are agonizing knee pain or surgery...You are WRONG!

Thousands of Chicagoland Boomers and Seniors are now getting knee pain RELIEF, INSTEAD of knee replacement.

Chicagoans, you can now eliminate your knee pain with a hot new pain cure.

Imagine... go shopping, walking or jogging, gardening, going to church, playing with your grandchildren, or going golfing without knee pain...

Do all of the things you used to enjoy and... get your life back free of knee pain.

Not only is it possible, thousands of Chicagoland Boomers and Seniors with knee pain have experienced the amazing relief this new non-surgical treatment option provides.

It's like taking 30 years of wear and tear off your knees - in less than 30 minutes!

"I didn't know how much LIFE and SLEEP I was missing because of my knee pain, until it went away with this wonderful treatment." — George R.

So What Is Causing My Knee Pain And How Do I Stop It?

It's pretty simple, really. You see, when you're young, you have a thick, fluid protein inside your knee joints to lubricate them as you move.

This fluid also acts as a cushion and shock absorber inside your knee. It's called synovial fluid, and it works much like the oil in a car's engine to keep all the parts moving freely, without friction.

However, as you age, this fluid dries out, leaving your bones to painfully rub and grind against each other with every step. And unfortunately, there's no way for the knee to make more.

After years of working perfectly, your knee starts to feel a subtle ache with certain activities like using stairs, kneeling down, or getting out of the car. With time, it becomes a constant ache. If left untreated, it can keep you awake at night, and hurt with every step.

But Should You Consider Surgery?

Maybe you're thinking about knee replacement surgery. It's a popular option that has been around for a while now. But, do you really want to lay in bed for weeks with

the possibility of still being in pain after? We've seen many patients still hurting for years after knee replacement surgery. It's not a 100% guarantee that you'll be pain-free.

The good news is, researchers have discovered all natural, lubricating fluid called Hyaluronic acid that is nearly identical to the fluid we have in our knees. It has been proven in numerous clinical studies to act as a natural lubricant in your joints.

It's FDA approved and is a perfect cushion and shock absorber for your joints. In fact, it's even been compared to letting your sore joints rest on the softest down pillow. It's almost as if your knee sighs with relief and relaxation.

Sounds Nice But My Knees Aren't That Bad...

Sure, you can put up with this ache in your knee, but the cost of doing nothing about it is HUGE.

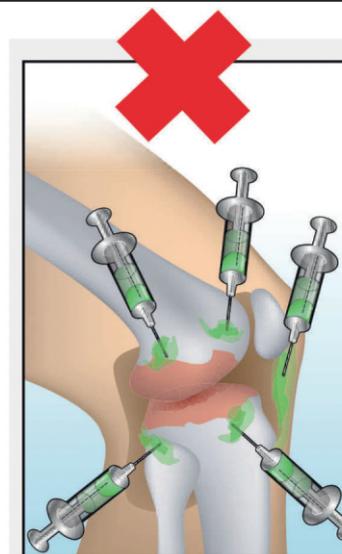

"Every day was hard. I couldn't enjoy my favorite activities anymore. But thankfully, now I'm back in full form. I am doing yard work for the first time in years!" — Phil M.

Seriously, you can get the knee pain relief you are looking for without wasting your precious time recovering or even spending a dime!

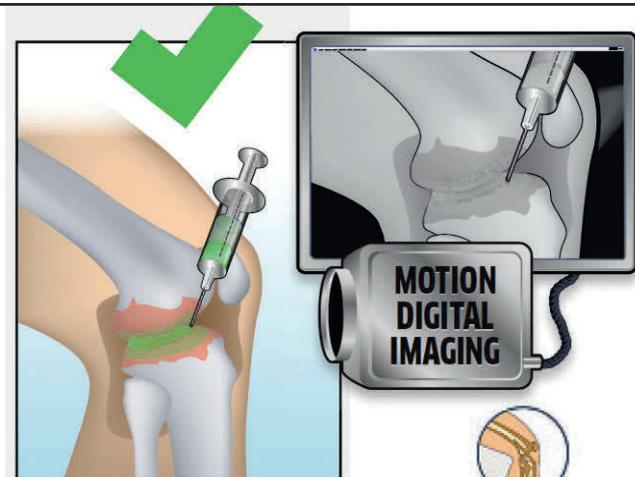

But, there is a HUGE problem: This treatment will ONLY work if it is administered precisely into the troubled tissues in the knees. If this treatment is delivered slightly off those areas it will never help you.

This is why a lot of people have received treatments like orthovisc or Synvisc in the past and never had any pain relief. A lot of them went on to have surgery they never needed in the first place.

In fact, a recent study looked at trained doctors who administer those kinds of injections blindly found that a third of them miss those specific areas in the joints. So, those patients walked away not knowing that whatever treatment they received will never have a chance to work because it completely missed the trouble areas.

If you received this kind of treatment in the past, and it didn't relieve your pain, there is a BIG chance the medication landed somewhere around, but not INSIDE, the joint where it can't help you. This happens 30% of the time without digital imaging.

JRI Doctors see live into the knee joint. Even you will be able to see the medicine flowing where it needs to be. No guess work, no poking around, the medicine cushions, lubricates, and helps heal the damaged knee.

JOINT RELIEF INSTITUTE
NON-SURGICAL JOINT ARTHRITIS TREATMENT
600 West 22nd Street Suite 102 Oakbrook, IL 60 Orland Square Dr Orland Park, IL

You Can Be Pain Free!

Go Golfing

Play With Your Grandkids

Go Dancing

This is why the doctors at Joint Relief Institute use advanced imaging in addition to an unique double confirmation technique to guarantee that **every single injection administered ends up in the right place**. Taking the precision further to a double confirmation technique is exactly why patients previously failing with 3 different doctors without advance imaging are now having pain relief for the first time in more than forty years. No wonder many patients are driving all the way from Michigan to receive this treatment.

Is it true? Could it be that this natural treatment cost NOTHING or very little out of pocket?

Yes! More good news besides the pain relief is that because this non-surgical pain relief program has already proven to help thousands of seniors, Medicare and other insurance plans pay for ALL or most of the cost of the treatment. So, there is very likely LITTLE or NO COST to you for this in-office treatment.

Here is what you need to do
Call now for a free screening ...

If you or a loved one is suffering with knee pain, this could be the blessed relief you're looking for.

You are personally invited to a FREE knee pain screening from the Joint Relief Institute doctors to see if you are a good candidate for this all natural, highly-precise treatment.

Your screening will only take about 20-30 minutes of your time, as one of their doctors sits down with you and answers all the questions you have about your knees.

On the day of your treatment, you'll be able to come in on your own, and be done within 30 minutes or less. No pain. No problem driving yourself home.

Due to high demand, they can only offer a limited number of FREE screenings every month.
