Federal and state agencies advise that every American home must have an emergency radio.

Every home needs an emergency radio in the event of hurricanes, tornadoes, earthquakes, electric power outages, and even terrorist attacks.

Picture This Very REAL Scenario: A shortage of fuel has closed your electric utility — or any one of several natural or man-made disasters has just devastated your town — power is out all over the city with no signs of being restored, floodwaters lap at your doorstep, and you and your family are completely cut off from all human contact . . .

Are You Prepared?: How will you know if and when you need to evacuate? Is the water from your tap safe to drink? Which shelters are still taking families? Where do you go? What do you do? Staying informed could be a matter of life and death.
