

# 5 Reasons NOW Is The Perfect Time to join the thousands who eliminated their knee pain.

During these trying times, Chicagoland doctors take COVID-19 protection measures to a whole new level and help thousands of babyboomers and seniors eliminate their knee pain while avoiding the hospitals

You can now eliminate your knee pain with a new pain cure in a place that takes COVID-19 precautions very seriously.

Imagine... this prolonged at-home lock-down without knee pain. How much easier would it be to handle this crisis if your knees were not constantly aching...

Not only is it possible, but Chicago doctors are actually helping patients get a better handle on the current craziness by wiping out their knee pain all together.

And the best news is, they are following a set of very simple, safe, and effective protocols, to get you the help you need and mitigate any risk of catching COVID-19.

## Ok, how do I stay safe?

The experts at Joint Relief Institute have implemented a "Stay Safe - Stay Clean" policy. Every single surface in the office is disinfected immediately before you touch it, every appointment room is wiped down, and during your visit you will only come into contact with your actual doctor. ***This protocol was carefully designed by doctors and is way more meticulous than anything you see in a local pharmacy or a grocery store.***

Of course, they religiously practice social distancing, and while hand sanitizers and gloves are in extreme shortage, they have them in abundance.

## So What Are These 5 Reasons Why I Should Do Something About It Now?

Let's cut straight to the truth: Because of the virus, there has never been a better time to address your knee pain. Find that hard to believe? Here are 5 reasons why you should consider getting this non-invasive knee pain treatment option right now.

**Reason #1: You don't want to go to the hospital.** Sadly, the truth of the situation is that hospitals are in triage mode. Many of you might have even had your appointments pushed back. All their efforts are focused on the virus - not to mention that's where the virus is! You don't want to be anywhere near the hospital right now.

**Reason #2: You need some good news right now.** Currently, we're all watching the news and feeling like the end of the world is here. Yet, experts say we're going to get through this and

we have reason to hope. So why not give yourself a bit of good cheer and get rid of that knee pain for good? Imagine all of the fun things you'll be able to do once life returns to normal: you'll be smiling, pain-free at your "post-corona" party!

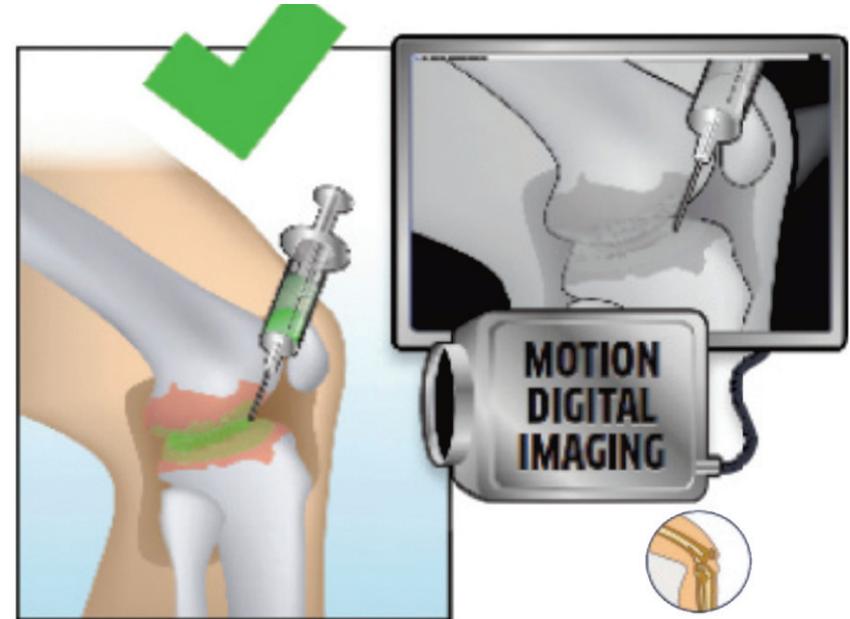

**Reason #3: Dealing with your knee pain is important for your self-care** without being dependent on anyone else to maintain your social distance. Not only this, once this pain is gone you're going to be in the best mood - and that affects you and the people you live with. "We get as many thank you notes from spouses for how less stressed and grumpy their partner became after the treatment eliminated their pain."

**Reason #4: Pain and stress has been proven to lower your immunity.** According to the American Psychological Association, stress has been proven over and over again to not only immediately lower your immunity, but also suppress them for up to 18 months! Sitting there in your house, dealing with the daily nuisance of nagging knee pain is a huge source of stress. Doing nothing about your knee pain could be lowering your ability to fight off this virus.

**Reason #5: The knee pain experts at Joint Relief Institute have completely revised their patient practices to serve you.** They have rearranged staffing and schedules to provide you with the best and safest service in the area. No longer will you wait to see a doctor. You will be seen immediately and will not be waiting around with other people in the waiting room. It's outstanding what JRI is doing to protect their patients.

## "Why do Shelter in place rules not apply to my visit to JRI?"

You should avoid unnecessary visits, especially to non-controlled environments; however, if you are in knee pain and just numbing it with toxic anti-inflammatories and ice-packs while ignoring the root cause, many times, we see pain progressing fast and within a few days, it gets so severe that your only choice is to go to an ER. Nobody wants you there now, especially when you can safely and proactively prevent it. The one thing we know is: The damage will NEVER undo itself without some help.

# You can be pain free!

NOSTOTROS  
HABLAMOS  
ESPAÑOL

Those who choose to "tough it out" always see a progressive and irreversible joint destruction, and with less activity, comes weight gain, depression, more aches, and pains until finally, you realize you can no longer do all those fun & exciting activities you enjoy. *Sure, you can put up with this ache in your knee, but the cost of doing nothing about it is HUGE.*

This is the best option for anyone suffering from knee pain; better than any other facility especially now with COVID-19. They are so specialized in knee treatments and most of their visits are under 10 minutes. ***You can't get results like these with stem cells, supplements, or even surgery. Glucosamine and Chondroitin can't do what this treatment can do.*** Here is what you need to do to claim your free screening:

If you or a loved one is suffering with knee pain, this could be the blessed relief you're looking for.

You are personally invited to a FREE knee pain screening from the Joint Relief Institute doctors to see if you are a good candidate for this all natural, highly-precise treatment.

Your screening will only take about 20-30 minutes of your time, in a completely disinfected exam room, where you will encounter no one else but your doctor.

On the day of your treatment, you'll be able to come in on your own, and be done within 30 minutes or less. No pain. No problem driving yourself home.

*Due to high demand, they can only offer a limited number of FREE screenings every month.*
